## DETAILED ACTION

### *Examiner's Statement of Reasons for Allowance*

1. Claims 1-36, 40-79, 81-84 and 86 are allowed. The following is an examiner's statement of reasons for allowance: Applicant's arguments, see amendment, filed January 15, 2004, with respect to claims 1, 13, 14, and 28-34 have been fully considered and are persuasive. The rejection of these claims has been withdrawn.
2. Independent claims 1, 13, 14, and 28-35 teach a mask blank comprising a scattering layer which is neither taught nor reasonably suggested in the prior art.
3. Regarding claims 1, 13, and 29-34, the prior art fails to teach or reasonably suggest the claimed scattering layer composition. Regarding claims 14 and 28, the prior art fails to teach or reasonably suggest the claimed scattering layer dimensions. Claims 2-12, 15-27, 35, 36, 40-79, 81-84 and 86 are allowed due to their proper dependence upon and further limiting of their respective independent claims.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### *Election/Restrictions*

5. This application is in condition for allowance except for the presence of claims 37-39 to an invention non-elected without traverse. Accordingly, claims 37-39 have been cancelled.

**Conclusion**

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kornblit, Avinoam et al., US Patent number 6051346 A teaches a mask blank having a tungsten scattering layer ranging in depth from 150-750 Angstroms.
